PROFESSIONAL SUMMARY

Strategic Business Analyst and Consultant with **3.3+ years** of experience driving digital transformation and operational excellence in **Telecom and BFSI** sectors. Expert in translating complex business requirements into scalable product roadmaps and AI/cloud solutions. MBA candidate (IIM Udaipur, Top 5%) with a proven track record in stakeholder management, Agile product lifecycle management, and data-driven decision-making — delivering **60–95% efficiency gains** and **1,000+ manual hours saved** annually.

PROFESSIONAL EXPERIENCE

Consultant, AI & Cloud Solutions

Dec 2022 – Mar 2025

Prodapt

India

- Managed end-to-end product lifecycle for **20+ automation initiatives** using Agile/Scrum, reducing process TAT by **60–95%** and saving **1,000+ manual hours annually**.
- Authored **20+ PDDs and SDDs**, translating 30+ operational pain points into standardized technical requirements for engineering teams.
- Facilitated **20+ UAT sessions**, bridging business stakeholders and engineering teams to ensure on-time product delivery.
- Architected **10+ scalable AWS-native solutions** (Lambda, API Gateway, EC2, S3) supporting **3x user growth** post-merger.
- Launched a **RAG GenAI module**, improving SLA compliance by **50%** for complex exception-handling workflows.
- Engineered reusable Python/SQL libraries, cutting development cycle time by **3+ hours per project** and accelerating time-to-market.

IT Risk & Systems Analyst (NSE)

Nov 2021 – Dec 2022

Tata Consultancy Services (TCS)

India

- Safeguarded NSE trading systems (**~\$65B daily volume**) via 30+ BCP drills and RCA on 10+ critical incidents.
- Led a 5-member team resolving **100+ technical incidents with zero downtime**; acted as primary stakeholder point of contact.
- Maintained **100% uptime** across 50+ RHEL servers; automated manual data workflows via Bash scripting for **80% efficiency gain**.
- Organized 6+ Linux/Bash training sessions, reducing senior engineer dependency and improving SLA compliance by **15%**.

KEY PROJECTS

Deloitte BA Assistant — Enterprise Co-pilot

Model Context Protocol (MCP) · Python · Deloitte

Engineered a secure, MCP-based co-pilot to automate M365 workflows (Excel, PPT, Email) without exposing sensitive data to LLMs; targeted to save **6+ hours/week per analyst** and ensure **85% template compliance**.

Workforce Analytics — Attrition Prediction

Survival Analysis · Python · Decision Trees

Found overtime raised attrition flight risk by **111%** using Survival Analysis; benchmarked against decision trees for strategic HR retention planning.

AI Product Feasibility — NER Model Benchmarking

PyTorch · Deep Learning · Sequence Models

Benchmarked 5 sequence models achieving **0.96 F1-score**, demonstrating business value of optimal model selection for product decision-making.
